Learning Outcomes:

* study the effect of float, clear and positioning schemes

Download the file from canvas tutorial7aLayoutDemo.html. Embedded CSS is used in this exercise.

Try out and see the effect of the following rule sets, remove all rules in a set before testing another:

set 1
box 1 - float left;

set 2
box 1 - float right;

set 3
box 1 - float left;
box 2 - float right;

set 4
box 1 - float right;
box 2 - float left;

set 5
div div - float left;

set 6
div div - float right;

set 7
div div - float left;
box 3 - clear left;

set 8
div div - float left;
box 3 - clear right;

set 9
div div - float left;
box 3 - clear both;

repeat set 7,8,9 - replace float left with right

set 13

box 1 - position: fixed; top:200px; left: 200px;

set 14
page - position: relative;
box 1 - position: absolute; top:200px; left: 200px;

set 15
box 2 - position: relative; top: -100px; left: +100px;

Use CSS rules to set the layout as follow :

Layout Demo
